Boston Lying-in Hospital
School of Nursing.

Arrangement for Obstetrical Affiliation

with

Massachusetts General Hospital
School of Nursing.

Below is set forth the arrangement for affiliation between the above hospitals to be continued until discontinued by vote of one of the said parties communicated in writing to the other. It is understood that at least three months' notice must be given before terminating such affiliation. An opportunity for conferences between the Superintendents of Nurses in the two schools will be given before a vote is taken relative to changes of major policies and practices.

General Conditions

Affiliating students will be accepted approximately every six weeks. The course is to be thirteen weeks or at least eighty-five (85) days of obstetrical experience. The Schools will be notified every year on December first regarding the routine change dates for the ensuing year. The change day will always occur on Monday. At 4 P.M. the students will report in uniform to the class room at the Boston Lying-in Hospital. The students will be recorded for duty Tuesday morning.

It is requested that routine throat cultures, with special reference to Hemolytic Streptococci, will be taken on all students before reporting for their affiliation. A written report of the cultures will be sent to the Boston Lying-in Hospital School of Nursing prior to the student's entrance.

Students sent to the Boston Lying-in Hospital must have been at least fifteen months in their respective schools and have had experience in surgical asepsis.

Student nurses will wear the uniforms of their respective schools. All nurses on duty at the Boston Lying-in Hospital wear a white head gear, which is supplied by the hospital.

Affiliating students shall receive at least forty-five hours of formal instruction, exclusive of organized ward teaching.

Affiliating students are on an eight hour day. A long day or the equivalent is granted each week in all departments, with the exception of, the delivery floor, septic division, relief, and night duty. Relief and night duty shall not exceed 21 days or nights. Relief nurses shall have two half days each week. Night nurses have a long day at the termination of their night duty.

Affiliating students shall receive clinical experience in the out-patient department, ward nurseries or premature nursery, and the delivery floor, and bedside experience in the general or septic wards. They shall receive 14 days experience in the nursery, caring for at least 12 newborn babies, and 14 days experience on the delivery floor, assisting with at least 12 cases.

A bill for the breakage of thermometers and syringes will be sent to their respective schools at the termination of the student's course.

Student nurses shall be under the discipline and subject to the rules and regulations of the authorities of the Boston Lying-in Hospital. Exceptional cases are to be re-

ferred to the respective school before final action.

Affiliating students will be provided with maintenance, including board, room, and laundry.

Affiliating students will be cared for during minor illnesses. In cases of serious illness they will be transferred to their respective schools, if so directed by the attending physician. In case of contagious disease clearly contracted by the nurse after reaching the Boston Lying-in Hospital, that institution will be responsible for the hospital care of each student at the Boston City Hospital, otherwise the responsibility shall rest with the respective school.

Text-books (at present Plass and Zabriskie 2nd Edition Revised) will be supplied by the Boston Lying-in Hospital upon a loan basis. Mimeographed outlines of the theoretical and practical procedures are given to the students. The affiliating students are requested to use the Nurses' Reference Library.

Within a reasonable length of time, after a student completes her affiliation, the Boston Lying-in Hospital will send a report of that student to the Massachusetts General Hospital on a form which is acceptable to both schools.

Whenever major changes in class content or ward practice are made, notice of this change will be sent in writing to the affiliating school.

Arrangement for Obstetrical Affiliation

with

Massachusetts General Hospital
School of Nursing

Below is set forth the arrangement for affiliation between the above hospitals to be continued until discontinued by vote of the said parties communicated in writing to the other. It is understood that at least three months' notice must be given before terminating the affiliation. An opportunity for conferences between the superintendents of nurses in the two schools will be given before a vote is taken relative to changes of major policies and practices.

General Conditions

The Boston Lying-in Hospital school of nursing will accept Massachusetts General Hospital students for a course of instruction and clinical experience in obstetrical nursing covering a period of thirteen (13) weeks or at least eighty-four (84) days of obstetrical experience. The Boston Lying-in Hospital will notify Massachusetts General Hospital school of nursing yearly on December 1 of the routine change days for the ensuing year. The change day will always occur on Monday unless this falls on a holiday, in which case, change day will occur on Tuesday.

The students will report to the Boston Lying-in Hospital on change day in sufficient time to be assigned to their rooms in the nurses' residence and to attend in uniform a faculty Welcome Tea at 3:15 p.m. A general orientation class will be held in the Lecture Hall at 4 p.m. Ward, nursery, out-patient department and delivery room orientation classes will be held between the hours of 6 p.m. and 7 p.m. Clinical practice in the various units is begun on the following day. Students' practice is recorded on that day.

Massachusetts General Hospital school of nursing will forward to the Boston Lying-in Hospital school of nursing at least four (4) weeks prior to the beginning affiliation date, a summary and health report which shall include information concerning:

- A. Date of entrance to school of nursing - number of days experience
- B. Number of days (if any) operating room experience
- C. Family data
- D. Personal adjustment to school and associates
- E. Information concerning any special problems either personal or professional which may affect the students adjustment to the affiliate program.
- F. Summarized report of students' health with particular reference to health problems.

Massachusetts General Hospital students will wear the uniform of their school of nursing. It is necessary that the home school see that all uniforms are in good condition before the student begins her affiliation. A white gauze headgear will be supplied by the Boston Lying-in Hospital.

Massachusetts General Hospital students shall have a minimum of twelve (12) months in the clinical field of nursing and an understanding of surgical asepsis.

The students will report to the Boston Lying-in Hospital on change day in sufficient time to be assigned to their rooms in the nurses' residence and to attend in uniform a faculty welcome tea at 3:15 p.m. A general orientation class will be held in the Lecture Hall at 4 p.m. Ward, nursery, out-patient department and delivery room orientation classes will be held between the hours of 6 p.m. and 7 p.m. Clinical practice in the various units is begun on the following day. Students' practice is recorded on that day.

Massachusetts General Hospital school of nursing will forward to the Boston Lying-in Hospital school of nursing at least four (4) weeks prior to the beginning affiliation date, a summary and health report which shall include information concerning:

- A. Date of entrance to school of nursing - number of days experience
- B. Number of days (if any) operating room experience
- C. Family data
- D. Personal adjustment to school and associates
- E. Information concerning any special problems either personal or professional which may affect the students' adjustment to the affiliate program.
- F. Summarized report of students' health with particular reference to health problems.

Massachusetts General Hospital students will wear the uniform of their school of nursing. It is necessary that the home school see that all uniforms are in good condition before the student begins her affiliation. A white nurse's cap will be supplied by the Boston Lying-in Hospital.

Massachusetts General Hospital students shall have a minimum of twelve (12) months in the clinical field of nursing and an understanding of surgical asepsis.

The Boston Lying-in Hospital will provide for the course in basic obstetrical nursing a minimum of fifty-four (54) hours of formal instruction and a minimum of two (2) hours weekly of demonstration and ward teaching. Students enrolled in the Collegiate program will have field trips to:

- A. Florence Crittendon Home
- B. Women's Free Hospital (Sterility Clinic)
- C. Evangeline Booth Hospital

The Boston Lying-in Hospital school of nursing will maintain sufficient and qualified supervisory and instructional personnel so that students will have adequate clinical experience as follows:

Out-Patient Department	5 - 7 days (2 days Saturday and Sunday Clinic is closed)
Normal, newborn or premature nursery	28 days
Delivery room	14 days (minimum)
Post-Partum Ward	28 days (minimum)

Massachusetts General Hospital students shall work a forty-four (44) hour, six (6) day week including classes on day and relief duty. Insofar as is possible on night duty, students will work an average forty-eight (48) hour week including classes. Students will be assigned to night duty insofar as possible in their senior period only. Evening and night duty shall not exceed twenty-one (21) days of each. When on day and relief duty the students will work six (6) hours only on holidays. The Boston Lying-in Hospital school of nursing will strive earnestly to reduce the amount of relief and night duty for each student.

Student nurses will be subject to the rules and regulations of the Boston Lying-in Hospital school of nursing. Massachusetts General Hospital students will elect a representative to the Student Council (The Governing board of the Boston Lying-in Hospital Student Government Association) at a mass meeting of all students held the second day after the students are enrolled in the course. The Student Council is recognized as the governing board of the Boston Lying-in Hospital Student Government Association whose power shall be "recognized in all matters concerning the conduct of the student in her dormitory life, and it shall endeavor to make this affiliation a more happy and pleasant one for the individual student nurse".¹ The Student Council is given assistance and guidance by the Faculty Group. Massachusetts General Hospital students will be provided with maintainance including board, room and laundry.

The Boston Lying-in Hospital will provide health service which shall include:

- A. Health clinic facilities for routine health check-ups and referral of health problems when necessary.
- B. Medical interviews for students when necessary.
- C. Infirmary for hospitalization.
- D. In the event of serious illness they will be transferred to the home school if so directed by the attending physician and director of the home school of nursing.
- E. When a student nurse contracts a contagious disease after reaching the Boston Lying-in Hospital that institution will be responsible for the hospitalization of such student if that is the wish of the home school.

The Boston Lying-in Hospital will provide for the course in basic obstetrical nursing a minimum of fifty-four (54) hours of formal instruction and a minimum of two (2) hours weekly of demonstration and ward teaching. Students enrolled in the College program will have field trips to:

- A. Florence Crittendon Home
- B. Women's Free Hospital (Sterility Clinic)
- C. Evangelina Booth Hospital

The Boston Lying-in Hospital school of nursing will maintain sufficient and qualified supervisory and instructional personnel so that students will have adequate clinical experience as follows:

- Out-Patient Department
- Normal, newborn or premature nursery
- Delivery room
- Post-Partum Ward
- 5 - 7 days (2 days Saturday and Sunday Clinic is closed)
- 28 days
- 14 days (minimum)
- 28 days (minimum)

Massachusetts General Hospital students shall work a forty-four (44) hour, six (6) day week including classes on day and relief duty. Insofar as is possible on night duty, students will work an average forty-eight (48) hour week including classes. Students will be assigned to night duty insofar as possible in their senior period only. Evening and night duty shall not exceed twenty-one (21) days of each. When on day and relief duty the students will work six (6) hours only on holidays. The Boston Lying-in Hospital school of nursing will strive earnestly to reduce the amount of relief and night duty for each student.

Student nurses will be subject to the rules and regulations of the Boston Lying-in Hospital school of nursing. Massachusetts General Hospital students will elect a representative to the Student Council (The Governing board of the Boston Lying-in Hospital Student Government Association) at a mass meeting of all students held the second day after the students are enrolled in the course. The Student Council is recognized as the governing board of the Boston Lying-in Hospital Student Government Association whose power shall be "recognized in all matters concerning the conduct of the student in her dormitory life, and it shall endeavor to make this affiliation a more happy and pleasant one for the individual student nurse". The Student Council is given assistance and guidance by the Faculty Group. Massachusetts General Hospital students will be provided with maintenance including board, room and laundry.

The Boston Lying-in Hospital will provide health service which shall include:

- A. Health clinic facilities for routine health check-ups and referral of health problems when necessary.
- B. Medical interviews for students when necessary.
- C. Infirmary for hospitalization.
- D. In the event of serious illness they will be transferred to the home school if so directed by the attending physician and director of the home school of nursing.
- E. When a student nurse contracts a contagious disease after reaching the Boston Lying-in Hospital that institution will be responsible for the hospitalization of such student if that is the wish of the home school.

- F. It is the responsibility of the director of nurses of the Boston Lying-in Hospital to notify the home school and family of the student immediately upon the occurrence of any illness. Written reports will be submitted to the home schools of all student illness.

Massachusetts General Hospital School of Nursing will furnish their students with the text book of Obstetrical Nursing by Zabriskie and Eastman 9th Edition. The Massachusetts General Hospital School of Nursing will finance the cost of the N.L.N.E. Achievement Test for each student. They will also finance the cost of purchasing a Procedure Book for their students. The fee for this is \$1.00

Each student shall be given a mid-term and final examination. The passing grade is 75%. If the student fails the final examination, she is to pay six dollars to the Boston Lying-in Hospital for the retake of the examination.

The director of Massachusetts General Hospital school of nursing will make every effort to attend group meetings of the directors of all schools of nursing sending students to the Boston Lying-in Hospital which will be held ~~semi~~-annually and whenever there are any problems pertaining to student education and general welfare, or major changes in curriculum or clinical practice.

Within a reasonable length of time after completion of each affiliation the Boston Lying-in Hospital will send a transcript of the record of each student to the Massachusetts General Hospital school of nursing.

A bill for the breakage of thermometers and syringes will be sent to the Massachusetts General Hospital school of nursing upon completion of each affiliation.

Arrangement for Obstetrical Affiliation

with

Massachusetts General Hospital School of Nursing

Below is set forth the arrangement for affiliation between the above hospitals, to be continued until terminated by either of the said parties, by three months' notice, in writing to the other. An opportunity for conference between the directors of nurses in the two schools will be given before changes of major policies and practices are made.

General Conditions

The Boston Lying-in Hospital School of Nursing (hereafter referred to as the Lying-in School) will accept Massachusetts General Hospital School of Nursing students (hereafter referred to as the Home School) for a course of instruction and clinical experience in obstetrical nursing covering a period of twelve weeks (12) or eighty-four (84) days of obstetrical experience. The Lying-in School will notify the Home School yearly on March 1 of the routine change days for the ensuing year. The change days will occur on Monday unless this falls on a holiday, in which case, Monday will be considered the student's holiday and change day will occur on Tuesday.

The students will report to the Lying-in School on change day to be assigned to their rooms in the nurses' residence and to attend in uniform a Faculty Welcome Tea at 1:00 p.m. Classes will commence at 8:00 a.m. the following day. (The exact time of change day events is subject to change on reasonable notice.)

The Home School will forward to the Lying-in School at least four (4) weeks prior to the beginning affiliation date of each student, a summary and health report, forms which will be provided by the Lying-in School.

The Home School students will wear the uniform of their Home School. It is necessary that the Home School see that all uniforms are in good condition before the student begins her affiliation. A headgear will be supplied by the Lying-in School.

The students shall have a minimum of twelve (12) months in the clinical field of nursing and a working knowledge of surgical asepsis.

The Lying-in School will provide for the course in basic obstetrical nursing a minimum of forty-eight (48) hours of formal instruction and a minimum of two (2) hours weekly of ward teaching.

The Lying-in School will maintain sufficient and qualified supervisory and instructional personnel so that students will have adequate clinical experience as follows:

Out-Patient Department	14 days
Normal New Born Nursery	21 days
Premature Nursery	7 days
Delivery Room	14 days (minimum)
Post-partum Ward	21 days (minimum)
Dietary and nutrition	integrated thruout experience

During the first four weeks, the students will have a 32 hour week including classes and clinical experience. Students will be scheduled for a 40 hour week including ward teaching, the 5th thru the 12th week. Students will be assigned to a total of 2 weeks of evening and night duty during the last 8 weeks of the affiliation. The following holidays will be recognized, and a day off given: New Year's Day, January 1; Washington's Birthday, February 22; Memorial Day, May 30; Independence Day, July 4; Labor Day, First Monday in September; Thanksgiving Day, Last Thursday in November; Christmas Day, December 25.

Students who miss more than 15% of the total hours of theory will withdraw from the course and return to repeat the entire course. Students who are absent from the clinical area will not be required to make up time if in the opinion of the faculty the student has had sufficient experience to give her an adequate understanding of the clinical area.

Student nurses will be subject to the rules and regulations of the Lying-in School. The Home School students will elect a representative to the Student Council, (the governing board of the Boston Lying-in Hospital Student Government Association) at a mass meeting held the second day after the students are enrolled in the course. The Student Council is recognized as the governing board of the Boston Lying-in Hospital Student Government Association whose power shall be recognized in matters concerning the conduct of the student in her dormitory life. The Student Council is given assistance and guidance by the Faculty Group. The Home School students will be provided with maintainance including board, room and laundry. Female students will be allowed to live out of the residence only with written permission of the Home School. Students may leave the Lying-in School residence at their own discretion unless specific notification to the contrary is received by the Lying-in School.

The Lying-in School will provide health service which will include:

- A. Health clinic facilities for minor health problems such as an upper respiratory infection, sore throat, boil, etc. In the event that a minor problem appears to be developing into something more serious, referral will be made back to the Home School.
- B. In the event of serious illness, the student will be transferred to the Home School, unless in the opinion of the attending physician such a transfer would jeopardize the student's health. Should it be necessary for the Lying-in School to care for major problems, financial responsibility and arrangements for hospitalization for the student will still rest with the Home School.
- C. It will be the responsibility of the Director of Nursing of the Lying-in School to notify the Home School and family of the student immediately upon the occurrence of any illness. Written reports will be submitted to the Home School of all student illness.

*Blue Card
Blue Sheet*

The Lying-in School shall charge the Home School a fee of \$125.00 for each student, which shall include the cost of the N.L.N. achievement test. A billing for all students attending throughout the first 6 weeks shall be rendered to the Home School between the 7th and 10th week of the affiliation, and this bill shall be paid within 30 days. If any student for whom a fee has been included in a bill withdraws after the 6th week because of illness or any other reason deemed by the Lying-in School to be excusable, the student may complete the program at a later date without further fee. No fee shall be charged for any student who withdraws during the first 6 weeks unless such withdrawal has been either at the request of the Lying-in School or as the result of

resignation by the student from the Home School. In either such event, there shall be charged a fee of \$90.00 or, if the student has been in the program less than 2 weeks, \$45.00.

The Home School will provide a textbook, Bookmiller and Bowen, 4th Edition, revised, for each student.

Each student will be given unit examinations and final examinations. The passing grade is 61%. For those students who have failed the final examination and who are eligible for retake examinations, a \$6.00 charge will be made. N.L.N. achievement tests will be given to each student.

The Director of the Home School will make every effort to attend group meetings of the directors of schools of nursing sending students to the Lying-in School which will be held annually and whenever there are any problems pertaining to student education and general welfare, or major changes in curriculum or clinical practice.

Within four (4) weeks after completion of each affiliation, the Lying-in School will send a transcript of the record of each student to the Home School.

BOSTON LYING-IN HOSPITAL
SCHOOL OF NURSING

ARRANGEMENT FOR OBSTETRICAL AFFILIATION

with

MASSACHUSETTS GENERAL HOSPITAL SCHOOL OF NURSING

Below is set forth the arrangement for affiliation between the above hospitals, to be continued until terminated by either of the said parties, by three months' notice, in writing to the other. An opportunity for conference between the directors of nurses in the two schools will be given before changes of major policies and practices are made.

GENERAL CONDITIONS

The Boston Lying-in Hospital School of Nursing (hereafter referred to as the Lying-in School) will accept Massachusetts General Hospital School of Nursing (hereafter referred to as the Home School) students for a course of instruction and clinical experience in obstetrical nursing covering a period of twelve weeks or eighty-four days. The change days will occur on Monday unless this falls on a holiday, in which case, Monday will be considered the students' holiday and change day will occur on Tuesday.

The students will report to the Lying-in School on change day to be assigned to their rooms in the nurses' residence and to attend, in uniform, a Welcome Tea at 3:00 p.m. Classes will commence at 8:00 a.m. the following day. (The exact time of change day events is subject to change on reasonable notice).

The Home School will forward to the Lying-in School, at least four weeks prior to the beginning affiliation date of each student, a summary and health report, forms for which will be provided by the Lying-in School.

The Home School students will wear the uniform of their Home School. It is necessary that the Home School see that all uniforms are in good condition before the student begins her affiliation. A headgear will be supplied by the Lying-in School.

The students shall have a minimum of twelve months in the clinical field of nursing and a working knowledge of surgical asepsis.

The Lying-in School will provide for the course in basic obstetrical nursing a minimum of forty-eight hours of formal instruction and a minimum of two hours weekly of ward teaching.

The Lying-in School will maintain sufficient and qualified supervisory and instructional personnel so that students will have adequate clinical experience as follows:

Out-Patient Department	14 days
Normal Newborn Nursery	21 days
Premature Nursery	7 days
Delivery Room	14 days (minimum)
Post-Partum Ward	21 days (minimum)
Dietary and Nutrition	Integrated throughout experience

During the first four weeks, the student will have no more than a thirty-two hour week including classes and clinical experience. Students will be assigned a forty hour week including ward teaching, the fifth through the twelfth week. Students will be assigned to a total of two weeks of evening and night duty during the last eight weeks of the affiliation.

The following holidays will be recognized and a day off given: New Year's Day - January 1, Washington's Birthday - February 22, Memorial Day - May 30, Independence Day - July 4, Labor Day - First Monday in September, Thanksgiving Day - Last Thursday in November, Christmas Day - December 25.

Students who miss more than 15% of the total hours of theory will withdraw from the course and return to repeat the entire course. Students who are absent from the clinical area will not be required to make up time if, in the opinion of the faculty, the student has had sufficient experience to give her an adequate understanding of the clinical area.

Student nurses will be subject to the rules and regulations of the Lying-in School. The Home School students will elect a representative to the Student Council, (the governing board of the Boston Lying-in Hospital Student Government Association) at a mass meeting held the second day after the students are enrolled in the course. The student council is recognized as the governing board of the Boston Lying-in Hospital Student Government Association whose power shall be recognized in matters concerning the conduct of the student in her dormitory life. The Student Council is given assistance and guidance by the Faculty Group.

The Home School students will be provided with maintenance including board, room and laundry. Female students will be allowed to live out of the residence only with written permission of the Home School. Students may leave the Lying-in School residence at their own discretion unless specific notification to the contrary is received by the Lying-in School.

The Lying-in School will provide health service which will include:

- A) Health Clinic facilities for minor health problems such as an upper respiratory infection, sore throat, boil, etc. In the event that a minor problem appears to be developing into something more serious, referral will be made back to the Home School.

- B) In the event of serious illness, the student will be transferred to the Home School, unless in the opinion of the attending physician such a transfer would jeopardize the student's health. Should it be necessary for the Lying-in School to care for a major problem, financial responsibility and arrangements for hospitalization for the student will still rest with the Home School.
- C) It will be the responsibility of the Director of Nursing of the Lying-in School to notify the Home School and family of the student immediately upon the occurrence of any illness. Written reports will be submitted to the Home School of all student illness.

The Lying-in School shall charge the Home School a fee of \$125 for each student, which shall include the cost of the N.L.N. achievement test. A billing for all students attending throughout the first six weeks shall be rendered to the Home School between the seventh and tenth week of the affiliation and this bill shall be paid within thirty days. If any student for whom a fee has been included in a bill withdraws after the sixth week because of illness or any other reason deemed by the Lying-in School to be excusable, the student may complete the program at a later date without further fee. No fee shall be charged for any student who withdraws during the first six weeks unless such withdrawal has been either at the request of the Lying-in School or as the result of resignation by the student from the Home School. In either such event, there shall be charged a fee of \$90 or, if the student has been in the program less than two weeks, \$45.

The Home School will provide a textbook, Bookmiller and Bowen, fourth edition, revised, for each student.

Each student will be given unit examinations and final examinations. The passing grade is 61%. For those students, who have failed the final examination, and who are eligible for retake examinations, a \$6 charge will be made. N.L.N. achievement tests will be given to each student.

The Director of the Home School, or her deputy will attend group meetings of the Directors of Schools of Nursing sending students to the Lying-in School which will be held annually and whenever there are any problems pertaining to student education and general welfare, or major changes in curriculum or clinical practice.

Within four weeks after completion of each affiliation, the Lying-in School will send a transcript of the record of each student to the Home School.

... ..
... ..
... ..

B) In the event of serious illness, the student will be transferred to the Home School, unless in the opinion of the attending physician such a transfer would jeopardize the student's health. Should it be necessary for the lying-in School to care for a major problem, financial responsibility and arrangements for hospitalization for the student will still rest with the Home School.

C) It will be the responsibility of the Director of Nursing of the lying-in School to notify the Home School and family of the student immediately upon the occurrence of any illness. Written reports will be submitted to the Home School of all student illnesses.

The lying-in School shall charge the Home School a fee of \$125 for each student, which shall include the cost of the W.L.N. achievement test. A listing for all students attending throughout the first six weeks shall be rendered to the Home School between the seventh and tenth week of the affiliation and this shall be paid within thirty days. If any student for whom a fee has been included in a bill withdraws after the sixth week because of illness or any other reason deemed by the lying-in School to be acceptable, the student may complete the program at a later date without further fee. No fee shall be charged for any student who withdraws during the first six weeks unless such withdrawal has been either at the request of the lying-in School or as the result of investigation by the student from the Home School. In either such event, there shall be charged a fee of \$50 or, if the student has been in the program less than two weeks, \$25.

The Home School will provide a textbook, Bookkeeper and Home, fourth edition, revised, for each student.

Each student will be given unit examinations and final examinations. The passing grade is 65%. For those students who have failed the final examination, and who are eligible for retake examinations, a \$5 charge will be made. W.L.N. achievement tests will be given to each student.

The Director of the Home School, or her deputy will attend group meetings of the Directors of Schools of Nursing sending students to the lying-in School which will be held monthly and whenever there are any problems pertaining to student education and general welfare, or major changes in curriculum or clinical practice.

Within four weeks after completion of each affiliation, the lying-in School will send a transcript of the record of each student to the Home School.

MASSACHUSETTS GENERAL HOSPITAL SCHOOL OF NURSING

BOSTON HOSPITAL FOR WOMEN
LYING-IN DIVISION

AGREEMENT

This agreement between Massachusetts General Hospital School of Nursing and Boston Hospital For Women, Lying-in Division will be effective for a period of one year: September 1, 1969 to August 31, 1970.

The Boston Hospital For Women, Lying-in Division and Massachusetts General Hospital School of Nursing hereby mutually and informally agree to the following.

INSTRUCTIONAL PLANNING

Students in the Maternity Nursing course at Massachusetts General Hospital School of Nursing may utilize for clinical laboratory experience certain clinical areas at the Boston Hospital For Women, Lying-in Division. The days and hours of clinical experience are to be planned by the faculty of Massachusetts General Hospital School of Nursing and mutually agreed upon by the Director of Nursing at the Boston Hospital For Women.

SPECIFIC RESPONSIBILITIES OF THE BOSTON HOSPITAL FOR WOMEN, LYING-IN DIVISION

- A. To provide practice nursing and/or observational opportunities on the agreed upon patients units.
- B. To provide dressing room facilities for the above mentioned students and faculty.
- C. To provide office, classroom/conference room facilities.

SPECIFIC RESPONSIBILITIES OF MASSACHUSETTS GENERAL HOSPITAL SCHOOL OF NURSING

- A. To make arrangements with the Director of Nursing, the Assistant Director, Nursing Education and designated staff of the Boston Hospital For Women, Lying-in Division to make plans for observation and/or clinical laboratory experiences.
- B. To provide all supervision and instruction required in the program, unless, in specific instances, other provisions are made.
- C. To abide by the existing rules and regulations of Boston Hospital For Women, Lying-in Division.

CHARGES

- A. Lockers, Laundry and dressing room facilities per student per affiliation. \$14.00
- B. Office, conference and/or classroom per four week utilization (\$6.25 per week) \$25.00
- C. Students and Faculty may purchase meals at the Hospital

HEALTH CARE OF STUDENTS

The home school is responsible for the health supervision of students. The hospital will provide only those services classified as first aid or emergency care; diagnosis of conditions related to exclusion from clinical practice; and if necessary clearance for return to clinical practice after illness.

The home school or the students are expected to be responsible for the students' medical and hospital costs.

MUTUAL RESPONSIBILITIES

The Department of Nursing Education of the Boston Hospital For Women, Lying-in Division and the faculty of Massachusetts General Hospital School of Nursing shall cooperate in the concurrent and final evaluation of the program at the end of the contract year.

AGREEMENT

The agreement between The Massachusetts General Hospital School of Nursing (Nursing Program) and Boston Hospital for Women (BHW) will be effective for a period of one year, September 1, 1973 through August 31, 1974. Boston Hospital for Women and The Massachusetts General Hospital School of Nursing hereby mutually and informally agree to the following:

Clinical Experience Planning:

There shall be a Planning Committee consisting of representatives from the faculty of The Massachusetts General Hospital School of Nursing and other nursing programs using BHW, together with representatives of BHW, which shall serve to prepare student schedules for utilization of the BHW. Schedules will be made quarterly for the periods September through December, January through March, April through June, and July through August. Final schedules should be submitted to the Director of Nursing one month prior to the beginning of each quarter.

Number of Students, Dates and Clinical Experience:

Sept. 6, 1973-Oct. 7, 1973	<u>Lying-in</u>	
Oct. 10, 1973-Nov. 11, 1973	Labor & Delivery	13-15 students
Nov. 27, 1973-Dec. 21, 1973	(6-7 days each student)	at each division
Jan. 9, 1974-Feb. 8, 1974	Special Care Nursery	(Parkway & Lying-in)
Feb. 21, 1974-March 24, 1974	(2 days each student)	during each 5 week
March 27, 1974-April 26, 1974	Family Unit	period, for 3 days
May 8, 1974-June 9, 1974	(6-7 days each student)	each week.
June 12, 1974-July 12, 1974	<u>Parkway</u>	
	Out Patient	
	(1 day each student)	
	Gyn Floors	
	(12-13 days each student)	

Responsibilities of the Boston Hospital for Women:

- A. To provide locker and dressing room facilities for students and faculty.
- B. To provide conference room space as available.
- C. To provide office space for faculty during the period that students are receiving clinical experience.
- D. To allow the students and faculty, at their own expense, to use cafeteria facilities.
- E. To allow utilization of library facilities and instructional materials.
- F. To provide students first aid or emergency care in care of accident, or diagnosis of conditions related to exclusion from clinical practice and, if necessary, clearance for return to clinical practice after illness, and to notify Health Service of the educational program of any care given.
- G. To provide practice nursing and/or observation opportunities in the agreed upon services.
- H. To provide that the Head Nurse in each area coordinates assignment of students to the care of specific patients with faculty members.
- I. To assist the school in the orientation of faculty and students to the hospital.
- J. To request that the school withdraw any student whose conduct or work may have a detrimental effect on the professional nursing staff or its patients.
- K. To provide written guidelines for student scheduling to the aforementioned Planning Committee, and to give final approval to the student schedules.

Responsibilities of The Massachusetts General Hospital School of Nursing

- A. To make arrangements to participate in student scheduling through the mechanism of the aforementioned Planning Committee.
- B. To provide all supervision and instruction required in the program, except for specific instances when other provisions are made.
- C. To abide by the existing rules and regulations of the Boston Hospital for Women.

- D. Charges: 1. Lockers, laundry and dressing room facilities per student per affiliation _____ \$14.00
2. Office and conference room space per week _____ \$6.25
- E. To provide for health supervision of students. To assure the Hospital that the school or its students are responsible for the expense of any medical or hospital services provided to students, students are expected to be responsible for their own medical and hospital costs.
- F. To arrange for orientation for new faculty members who have not had previous clinical experience in the areas of the hospital where they will be supervising students.
- G. To orient Head Nurses to objectives of the educational program in areas where students are assigned, and to evaluate the clinical experience with the Head Nurse at the conclusion of the clinical experience.
- H. To designate one faculty member responsible for the clinical experience to work with the BHW in planning and evaluation.

Period of Contract:

The agreement will extend for the period of one year (September 1973-August 1974). At the end of the year, the faculty and representatives of the hospital will review the program and make plans for the following year.

Boston Lying-in Hospital
221 Longwood Avenue
Boston 15, Massachusetts

JAN 10 1964

4-5
January 7, 1964

Thank for
notice - say
in Los Angeles
for meeting & so can
not attend but 4-5
others whose courses
relate to yours will
be there -

Miss Ruth Sleeper, R.N.
Director of Nurses
Massachusetts General Hospital
Fruit Street
Boston 14, Massachusetts

Dear Miss Sleeper:

The Board of Trustees of the Boston Lying-in Hospital has increased the tuition from \$75.00 to \$125.00 per professional nurse student for the twelve week period. This will become effective with the group entering August 31, 1964.

The following method will be used in computing charges for those students whose course is interrupted:

1. Students withdrawing for illness or for other legitimate reason, who expect to complete the program later, will be charged the full tuition charges if they have completed six weeks or more; when they return there will be no additional fee. Students who withdraw prior to the completion of six weeks will not be charged at the time; the tuition will be charged in full upon completion of the course at a later date.
2. Students who are requested to withdraw or who withdraw because of resignation from the home school will be charged according to the following schedule:

In the program less than two weeks	\$45.00
In the program two to six weeks	\$90.00
In the program six weeks or more	\$125.00

The increase in tuition has been made necessary by the additional costs of the program that has been in effect since September 1963. The amount of service for which one can give the student credit has been decreased substantially.

The response to the revised program has been good and we feel we are providing students with a better coordinated obstetrical program. However, we do not feel that the Boston Lying-in Hospital alone can absorb the increased costs of this program.

There will be a meeting of the Directors of the affiliating schools on Wednesday, February 26, 1964 at 1:30 p.m. in the Swift Library, Boston Lying-in Hospital. At that time the revised program will be discussed. We will welcome any comments you may have to offer regarding the program or any other matter pertaining to the affiliation. A tour of the new Gertrude Garrahan Nursing Library will be arranged following the meeting.

It will be appreciated if you could let me know the number who will be attending from your school.

Sincerely yours,

Virginia Jepson

Virginia Jepson, R.N.
Director, School of Nursing
and Nursing Service

VJ:sab

The Student Body of the School of Nursing and Nursing Service received a report of \$25.00 per 1-week period. It was stated that the School of Nursing and Nursing Service was in a position to pay the balance of the cost of the educational program. It was also stated that a charge of \$100.00 would not be out of line.

The Student Body of the School of Nursing and Nursing Service was informed that the School of Nursing and Nursing Service was in a position to pay the balance of the cost of the educational program. It was also stated that a charge of \$100.00 would not be out of line.

A larger library with additional space is needed. Consideration should also be given to obtaining the services of a librarian.

Oct. 15/63

There will be a meeting of the Directors of the Library at the
Wednesday, February 26, 1964, at 1:30 p.m. in the South Library, Boston Public
Library. At that time the revised program will be discussed. We will
welcome any comments you may have to offer regarding the program or any other
matter pertaining to the situation. A copy of the new program is being
distributed to the Library following the meeting.

It will be appreciated if you could let us know the answer and will be
attending the school.

Sincerely yours,

W. L. and

AGENDA FOR NURSING ADVISORY COMMITTEE

1. CHANGE TO A TWELVE OR THIRTEEN WEEK ROTATION FOR ALL SCHOOLS:

Presently seven schools send students for 12-week period and four schools send students for 13-week period. This presents a problem in that the period of time between the two groups does not remain constant and eventually the change day for the two groups comes at the same time. This will occur in November of this year when all students in the basic program will leave at the same time and will be replaced by a new group of students.

2. CHARGE FOR THE BASIC AFFILIATE PROGRAM:

The National League for Nursing Cost Study done in 1961 revealed that the cost per student was approximately \$900.00. The student is here for approximately 480 hours. Of this time, about 130 hours are spent in class. Allowing for 350 hours of service at the rate of \$1.25 per hour, the student should be allowed a credit of \$437.50. This leaves a balance of \$463.50 as the hospital cost per student. While it probably is not feasible to expect the student to pay the balance of the cost of the educational program, it does seem that a charge of \$100. would not be out of line.

wp/
The Students from the schools of Practical Nursing now receive a stipend of \$25.00 per 4-week period. It would seem that some consideration should be given to discontinuing this if a charge is made to the basic professional nurse students.

3. HOUSING:

The Nurse's Home is overcrowded with the number of students we now have enrolled. Perhaps consideration should be taken to limit the number of students in the school or to make other arrangements for housing the practical nurse students.

4. LIBRARY:

A larger library with more seating space is needed. Consideration should also be given to obtaining the services of a Librarian.

November 5, 1965

Perhaps you would prefer to talk with me about these items before we come back again to the "Agreement." If so, please let me know.

Miss Virginia Jepson, Director
Nursing Education and Nursing Service
Boston Lying-in Hospital
221 Longwood Avenue
Boston, Mass.

January 3, 1966

Dear Miss Jepson:

Ruth Sleeper, R.N.
Director of the School of Nursing
and Nursing Service

I am returning the contract unsigned. Perhaps you will wish to return it to me again to sign if the items mentioned do not in your opinion influence the agreement.

First, on page 2, the top paragraph "Students will be assigned to a total of two weeks of evening and night duty during the last eight weeks of the affiliation." Could this be clarified for us? First of all, to make it clear that this is a maximum of two weeks for either or both evening and night assignment, and second, what is a week in terms of time - does this mean a student will have 14 days or does it mean she will have two weeks in terms of 5-day weeks?

The second item pertains to health care. As of this September all MGH students now have either Blue Cross-Blue Shield or some other comparable insurance. Therefore, in the event of illness, when a student is not transferred to us, whether she is cared for in your hospital or elsewhere her cost would be carried by the insurance and would not be in that respect our responsibility.

We have one other question and that is the need for the students to have some day experience before they begin either evening or night assignment. It appears from the records that students go immediately or almost immediately from their study block to evening or night assignment. We feel very strongly that the student needs a period for learning on the day assignment before she is moved to an evening or night assignment where she is somewhat more left alone. As with us, I believe your evening and/or night instructors also carry some service responsibilities. This is a very different situation than if a small number of students were placed upon evenings or nights with a full time teacher who had no patient care responsibilities and therefore could be available for the amount of teaching and quality of teaching which should be done.

Perhaps you would prefer to talk with me about these items before we come back again to the "Agreement." If so, please let me know.

I am returning the enclosed assignment. I am returning it to you again to sign it. The enclosed is not in your opinion sufficient for the assignment.

First, on page 2, the top paragraph "Students will be assigned to a total of two weeks of evening and night duty during the last eight weeks of the assignment." Could this be clarified for us? First of all, do we mean in each of the two weeks of two weeks for either on both evening and night assignments, and second, what is a week in terms of time - does this mean a 24-hour shift or does it mean the student will have two weeks in terms of 2-day weeks?

The second item pertains to health care. As of this September all the students now have either Blue Cross or Blue Cross of New York health insurance. Therefore, in the event of illness, when a student is not insured by us, whether or not covered for in your hospital or elsewhere, we would be covered by the insurance and would not be in that respect an responsibility.

We have one other question and that is the need for the students to have some day experience before they begin their evening or night assignment. It appears from the records that students go immediately or almost immediately from their day shift to evening or night assignment. We feel very strongly that the student needs a period for learning on the day assignment before he is moved to an evening or night assignment where he is somewhat more left alone. As with us, I believe your evening and night assignments also carry some service responsibilities. This is a very difficult situation than it is a small number of students were placed upon evening or night shift. A full time teacher who had no a full time responsibility and therefore could be available for the amount of teaching and quality of teaching which should be done.

Dear Miss Jepson:

and I share your sadness over the breaking of our long association with the MGH School of Nursing. We are genuinely sorry that this move, but our decision was finalized. This week after all the meetings with Faculty, Advisory Council, Administration and Trustees were ended, our decision was finalized. We will, as always, be willing to bear the burden of educational cost and a proportion of your student body. I am sorry to write that after sixty-five years of association in nursing education with the Boston Lying-in Hospital, the Massachusetts General Hospital School now feels obliged to terminate its affiliation. The last students will complete their requirements on August first this year, 1966.

I am very much aware that the Ell has been the unwilling precipitant. The reason for our withdrawal is already known to you. We do not believe it possible or wise now to add further to the cost of student tuition and fees. The reason for our withdrawal is already known to you. We do not believe it possible or wise now to add further to the cost of student tuition and fees.

This letter brings to you, the Faculty, the Head Nurses, the Doctors and others who have in any way helped to enrich their experience, the gratitude of the School for the instruction of the many hundreds of M.G.H. students who have affiliated with you since January 18, 1901.

Dear John:

Duncan Reid and I share your sadness over the breaking of our long association with the MGH School of Nursing. We are genuinely sorry that you find it necessary to make this move, but we simply cannot afford to assume the entire burden of feeding and housing such a large proportion of your student body. We will, as always, be willing to bear the burden of educational cost and a reasonable part of the board and room expenses. The other schools are going along with this arrangement and if, in the future, you should wish to re-establish our old affiliation, we will be delighted to have you back.

Dear Miss Sleeper:

I am very much aware that the BLI has been the unwilling precipitant of another rise in the cost of nursing education. I have suggested to Bob Ebert that the whole problem should be discussed by the hospital directors' group and believe it will be on our agenda soon.

We have enjoyed our contact with your school and the students and will miss this association.

I thought Nat Talbot's lecture was excellent. The Lowell Lecture series looks like an outstanding one. You are doing a great job! returning the "Agreement" for the current year, which you returned to me some time ago. I trust you will want a signed copy for your files as we do.

Now that the students have all completed their program with you and have returned home, I should like to put into writing again the School's appreciation of all that B.L.I. has done for the students of this generation and the many years past.

We know that in making the change we shall suffer some losses; that the situation in a city hospital can never be the same as that in a private teaching hospital. We are at the same time glad to have opportunity to make the obstetrical course a more integral part of our total program, and to have the instructors in obstetrics participate actively with the instructors in pediatrics in setting up a Maternal-Child Unit which hopefully will be more meaningful than what we have been able to do with the two courses conducted so separately. We are nevertheless sorry to terminate this relationship with you, and hope that as the time goes on we may find some other way in which to work together for the benefit of patients and students in nursing.

Sincerely yours,

I am happy to say that in the past year the students' record in State Boards has shown definite improvement. For this we are very grateful. We know it is the result of much extra time and effort to improve your program. I am hopeful we may reach as good a result with the students that we teach ourselves.

Virginia Jepson, R.N.
Director, School of Nursing
and Nursing Service

VJ:j
If at any time there is anything that the M.G.H. nursing family can do to work with the B.L.I. nursing group, I trust that you will call upon those who are here. As I, myself, am retiring in September I make this offer not because I shall be here to help, but because I know that the feeling built up over the years will not come to an end just because the student program is no longer at the Lying-in. My thanks to all who have participated in the program for our students, the administration, the faculty, the residence head, and all others whose contribution has served either to make a better academic opportunity or a happier and more comfortable living.

Sincerely yours,

Ruth Sleeper, R.N.

August 3, 1967

Mr. Gerald W. Mungerson
Administrator
Boston Hospital for Women
Lying-in Division
221 Longwood Avenue
Boston, Massachusetts

Dear Mr. Mungerson:

Thank you for notifying us of Miss Metras' resignation and the appointment of Miss Williams as Acting Director.

I share with you and Miss Sleeper in the disappointment of not using the excellent facilities of the Boston Hospital for Women for our students' experience. This has been a pioneering year for us and in a way much good has come from it. It has given us both the opportunity and responsibility to plan for a Maternity Nursing course in relation to our total program, and to incorporate some ideas, teaching methods and experiences which we have long wished for. In particular we are able to relate this to our Nursing Of Children and Growth and Development courses, eventually aiming for a Maternal-Child Health course. While we are very grateful for the experience which our students are now receiving, and the cooperation extended to us, we would not be honest if we did not admit that we miss B.L.I. we did enjoy can be resumed.

I deeply appreciate the invitation which you extend to have us reconsider an affiliation. While our plans for this coming year have been made, as I am sure you realize, it is good to know that we might consider this for the future.

Gerald W. Mungerson
Administrator

WOMEN

LYING-IN DIVISION

23 June 1967

Miss Natalie Petzold
Director of School of Nursing
Massachusetts General Hospital
Fruit Street
Boston, Massachusetts 02114

Dear Miss Petzold:

I am writing to announce the resignation of Miss Pauline Metras as Director of Nursing of the Lying-in Division of the Boston Hospital for Women. We have asked Miss Kathleen Williams to assume the position of Acting Director. Miss Barbara Toth, current Director of Nursing Education at the Lying-in Division will assume all responsibilities for nursing education previously held by Miss Metras.

As you perhaps know Miss Sleeper and I have been chatting about our nursing situation for a good many weeks. One of our conclusions was our joint disappointment of severing the relationship between the General and the Lying-in. I want to formally say how eager we are to get back together and hope that these sixty years of affiliation that we did enjoy can be resumed.

Cordially,

Gerald W. Mungerson
Administrator

DIRECTOR

BOSTON 02114
TELEPHONE (617) 726 3135

March 23, 1979

Mrs. Carol Brooks
Director of Nursing
Boston Hospital for Women - Lying-In Division
221 Longwood Avenue
Boston, Massachusetts 02115

Dear Mrs. Brooks,

As you know from our ongoing Communications, the Massachusetts General Hospital is planning a transition from the present diploma program in Nursing to a three year M.S. Program in Nursing for non nurse Baccalaureate graduates. Our current Freshman Class, the last to be admitted into the diploma program, will be taking the Maternal Child Nursing Course during the 1979-1980 school year and we plan to utilize the clinical facilities at the Boston Hospital for Women as we have in the preceding years. This last class of diploma program students will complete Maternity Nursing in early July, 1980.

In the early planning stages for the new program, which will be conducted under the auspices of the Education Division of the Hospital, we discussed with you our wish to continue utilizing the clinical facilities at the Boston Hospital for Women for Maternity/Gynecology experience. At that time you expressed an interest and willingness to negotiate with the MGH Education Division for the use of the BHW facilities for this purpose. We are confident that the students selected for the program will be able to make positive contributions to nursing and we plan to admit a class of approximately fifty students per year.

The Trustees have established September, 1980 as the target date for admitting the first students into the degree granting program. Presently a search is being undertaken for the chief academic administrator for the Education Division (Provost). Subsequently, Program Directors and a corps of faculty will be recruited and appointed. While the details of the curriculum will not be finalized until these appointments are made, we wish to request experiences beginning with the 1980-1981 school year, based on current projections for the curriculum, as follows:

In the proposed curriculum plan, Foundations of Nursing will be a series of integrated courses extending through six terms of fifteen weeks each during the first and second years (3 terms per year). It seems most likely that Maternity Nursing may be scheduled during the second and third terms of the first year. The earliest time, therefore, when Maternity Nursing might be offered would be Terms II and III of the first year: January 1981 through July 1981.

The students will no doubt need all of the experiences currently being offered to our diploma students, namely, Labor and Delivery, Family Centered Post Partum, High Risk and Complications of Pregnancy and Gynecology. The maximum number assigned at one time would be 25 students and most likely, fewer than this during the first year.

We would be most appreciative if space can be reserved for us. As in the past, we will utilize evening and weekend experience in cooperative arrangements with other schools using the facilities for experience.

We recognize that there is a great demand for Maternity Nursing experience and have been grateful for the consideration given to our requests throughout the years and for the valuable experiences provided for our students.

As soon as possible, we will provide you with further information including course objectives, more definite dates and numbers of students, number of clinical hours and types of experiences desired. In the interim, we request that space be reserved for our possible use from January 1981 through July 1981 for 25 students.

We look forward to a continuing relationship with the Boston Hospital for Women.

Sincerely,

Natalie Petzold
Director, School of Nursing
